0961學期 課程基本資料

系所 / 年級: 健醫系碩士班 2年級
課號 / 班別: 23M00020 / A

學分數: 2學分
選 / 必修: 必修

科目中文名稱: 健康照護機構實習
科目英文名稱: Practice in Health Care Organization

主要授課老師: 張李淑女
開課期間: 一學期

人數上限: 22 人
已選人數: 22人

起始週 / 結束週 / 上課地點 / 上課時間
第1週 / 第18週 / M505 / 星期6第01節
第1週 / 第18週 / M505 / 星期6第02節

教學綱要

一、教學目標(Objective)
The placement period is an important element of the course and is designed to enable students to meet the following objectives. 1. To develop technical and social skills necessary to gain the confidence and ability to work effectively and efficiently in any organisation. 2. To become aware of the use and application of relevant techniques in the work situation. 3. To have the opportunity based on student performance, to exercise supervisory skills in the working environment. 4. To become familiar with the healthcare organisation and what it has to offer in terms of career prospects, conditions, etc.

二、先修科目(Pre Course)
PURPOSE OF PLACEMENT 1. To develop individual maturity, self-awareness and confidence. 2. To provide a structured, practical experience of the healthcare administration. 3. To consolidate knowledge and skills learnt during studies and appreciate employer standards and levels of performance. 4. To enable employers to demonstrate the career potential that is available. The placement arrangement: 1. It should be scheduled for 2 months (practise at least 4 days every week, two months in a unit, or each practise for one month in two units. 2. It is the student's responsibility to chooses the appropriate placement organization (including overseas placements), and then it will be arranged by the institute office.

The placement period is an important element of the course and is designed to enable students to meet the following objectives. 1. To develop technical and social skills necessary to gain the confidence and ability to work effectively and efficiently in any organisation. 2. To become aware of the use and application of relevant techniques in the work situation. 3. To have the opportunity based on student performance, to exercise supervisory skills in the working environment. 4. To become familiar with the healthcare organisation and what it has to offer in terms of career prospects, conditions, etc.
